

# MANUKApli®

Sterile Wound Dressing

## PURE. ALL NATURAL. EASY TO USE.

MANUKApli is 100% medical-grade Manuka honey in an easy-to-use applicator tube. It can be applied either directly to the wound bed or to a primary dressing.

Extensive research demonstrates that Manuka honey exerts powerful healing properties while helping to maintain a balanced, moist wound environment<sup>1,2</sup> to accelerate the healing process.

- Bacteriostatic activity inhibits bacterial growth.<sup>1</sup>
- Anti-inflammatory activity interrupts the cycle of excessive inflammation to prevent tissue damage and alleviate pain associated with inflammation.<sup>1</sup>
- High in antioxidants<sup>3,4</sup> to reduce scarring.
- High osmolarity stimulates autolytic debridement.<sup>1,2</sup>
- Neutralizes the cause of wound odor by inhibiting bacterial growth.<sup>5</sup>
- Acidic pH of 3-4 helps speed wound healing.<sup>4</sup>

## IDEAL FOR PARTIAL- OR FULL-THICKNESS WOUNDS.

MANUKApli is appropriate for wounds with moderate to heavy levels of exudate.

- Dry wounds • Skin tears • Small abrasions
